PROJECT

1 Travel Planner App

Technologies used: **Flutter**, **Firebase**

- Developed a cross-platform mobile app to help users plan and organize trips.
- Features include destination search, itinerary creation, and travel budget tracking.
- Integrated Firebase for real-time data storage and user authentication.

2 Real Estate Website

Technologies used: **HTML**, **CSS**, **JavaScript**, **PHP**, **MySQL**

- Created a dynamic website for listing, searching, and managing property listings.
- Implemented user login, property uploads, and contact forms.
- Designed with a responsive UI for both desktop and mobile users.

3 Personal Portfolio Website

Technologies used: HTML, CSS, JavaScript

- Designed and developed a personal portfolio site to showcase projects and skills.
- Included project sections, contact form, and responsive design.
- Focused on clean UI/UX and smooth navigation.

4 Flora the Explorer – Unity 2D Game

Technologies used: **Unity**, **C#**

- Designed and developed an educational 2D game focused on plant learning.
- Includes interactive levels, animations, and spelling-based plant recognition.
- Built for Android with smooth controls and engaging gameplay.
