OBJECTIVE

Seeking to secure a career-oriented position in a professional environment that offers the opportunity to utilize my technical skills in full-stack development and AI, while providing further learning opportunities to satisfy my commitment to continuous professional growth and research.

QUALIFICATION

BS in Computer Science
2022-2026
University Of Mianwali, Punjab.
CGPA: **3.72/4.00**

Intermediate
2020-2022
Intermediate Examination (Pre-Engineering),
F.B.I.S.E Islamabad
Marks: **701/1100 (63.7%)**

Matriculation
2018-2020
Matric Examination (Pre-Medical)
B.I.S.E Bannu
Marks: **958/1100 (87.1%)**

WORK EXPERIENCE

- Freelance Full-Stack Developer**
Self-Employed | Present
Delivered 20+ comprehensive web and mobile applications, specializing in cross-platform development with Flutter and web portals using React.js. Managed complete software lifecycles, including backend architecture, database integration (MySQL, Supabase, Firebase), and AI-driven commercial video production.
- Java Development Intern**
CodeAlpha, Virtual Internship Program
September 15, 2024 – October 15, 2024
Gained hands-on experience in Java application development, designing core logic and implementing clean OOP principles. Worked on backend optimization, database connectivity, and testing to ensure efficient system performance.

TECHNICAL SKILLS

- **Languages & Web:**
Flutter (Dart), React.js, Python, Java, HTML, CSS
- **Backend & Data:**
Node.js, Django, RESTful APIs, Firebase, MongoDB, Supabase, MySQL, PostgreSQL
- **AI, Design & Tools:**
TensorFlow, NLP, Google Dialogflow, Figma, Android Studio, VS Code, Roboflow, Kaggle, Google Colab, GitHub, Git

FINAL YEAR PROJECT

CareXpert - AI Dermatology Ecosystem

CareXpert is a market-ready AI platform designed to diagnose rare skin conditions, specifically **Hidradenitis Suppurativa** (HS) and **Argyria**. The system uses **Flutter** for the patient mobile app and **React.js** for the doctor and admin **web** portals. Powered by **Django** and **Supabase**, it provides a secure clinical workflow that handles **AI-driven** image analysis, lesion segmentation, appointment scheduling, and digital prescribing. This platform effectively bridges the gap between preliminary AI screening and professional medical care.

ACHIEVEMENTS

- 1st Position in Final Year Project
- Academic topper with a 3.72 CGPA (Distinction).
- Certified member and active participant in the University Gaming Society.

AREAS OF INTEREST

- Artificial Intelligence & AI Models
- Full-Stack Web Development
- Mobile App Development
- UI/UX Designing & Prototyping
- Backend & Database Systems

OTHER PROJECTS

- Boole Software (License & API system automation using Java and MySQL)
- Travel Planner App (Android trip management app built with Java)
- Prima Cestas (E-commerce portal using WordPress and WooCommerce)
- Ziur Software (AI-powered commercial video production)
- Financial Tools (Excel automation for accounting and financial statements)
